

SEA Fleet PMS — Self-Attestation

Issuer: VoxDuru · Product: SEA Fleet PMS 1.0.0 · Date: 2026-08-16

This is not Classification Society Type Approval. First-party self-attestation of Z20-aligned controls. Final class acceptance remains with Class / RO.

We declare that SEA Fleet PMS 1.0.0 implements computerized planned maintenance controls aligned with the functional intent of IACS UR Z20 and class software expectations referenced by DNV-CP-0206 / BV NR496 / ClassNK (software PMS):

1. Computerized PMS with class-item identification
2. Access control for program/interval updates (Chief Engineer / Superintendent)
3. Backup & ≥5-year class history retention policy
4. English job descriptions and maintenance history for class items
5. Traceable interval/job changes (audit log / changelog)
6. E0 / AUT / AUTnh periodical test job templates
7. Product identification mark: SEA Fleet PMS 1.0.0 in UI
